

## About SITE

SMART Integrated Talent Exam (SITE) is an ingenious initiative by Prof. K K Anand's SMART (Science & Mathematics Academy for Real Talents) to identify the talented students in Maths & Science, as well as to provide appropriate feedback with analysis regarding a student's preparation level for a National level competitive exam.

With major competitive exams like JEE-Main and JEE-Advanced becoming online, the future direction for other competitive exams is also clear. Hence, it is important for students to experience the online mode of testing. This also facilitates the generation of better analytics on the performance as feedback.

## Salient Features

- Tests the conceptual Knowledge and Problem Solving Skills in accordance with the expected Level of Competence in the National Level.
- Comprises of three difficulty levels over the regular school curriculum.
- Subjectwise / Levelwise & consolidated Analytical report highlighting the strength & weakness, apart from various relevant statistics.
- Certificates / Prizes for top performers along with Free Winter Workshop.
- Avail performance based Scholarship for Courses offered by SMART & Admission into Smart Minds Academy Alternate School.
